FRESH

What does fresh mean? Fresh is more than an adjective that describes your veggies, fresh is a philosophy. At Chorizo, fresh is a way of life.

We learned how to make Mexican food from the source. We spent weeks learning the trade in Mexico at local tacquerias, and realized that it was the fresh ingredients and passion for preparation that separated authentic Mexican tacos and burritos from their north-of-the-border counterparts.

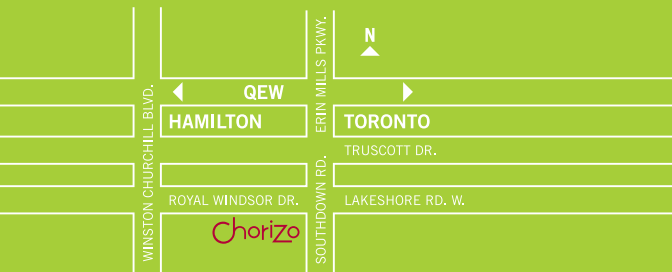

We made it our mission to bring to our customers only the freshest food, prepared each and every morning. Four different flavours of mouth-watering salsas, straight-from-the-avocado guacamole, crisp vegetables, and quality meats all combine to create an exemplary food experience.

We know that once you try Chorizo you will realize what our customers have known since we wrapped our first burrito in 2005; that fresh is more than just a tagline.
